

Experience total, wireless mobility:  
**Always on, always connected**

## 802.11b **Wireless PC Card**

**MA401**

**NETGEAR**'s MA401 802.11b Wireless PC Card gives you total freedom—it allows you to stay continuously connected to your Local Area Network without any wires. Roam freely throughout your office from one access point to another and continue to send and receive e-mail and use other network resources, such as files and printers, at 11 Mbps speed. Quickly and effortlessly network your employees, including those in remotely located offices in your building, minus the time and expense of Ethernet cabling. Standards-based 802.11b technology and 128-bit Wired Equivalent Privacy (WEP) encryption provide your network with the highest level of reliability and privacy. Designed for PCs running Windows 95, 98, Me, NT, and 2000, the MA401 performs with a wide range of wireless Internet services available in airports and hotels, and supports the vast majority of notebook PCs.

**Help is there when you need it!**

**NETGEAR provides 7x24**

**telephone and e-mail technical**

**support in English, with selected**

**local language support during**

**office hours.**

### **ADEPT**

Provides continuous access to corporate resources and e-mail, and lets you share your cable/DSL connection—all at a high-speed 11 Mbps.

### **SECURE**

Includes 40-bit and 128-bit WEP encryption to afford your wireless network the maximum level of privacy.

### **EASYGOING**

Has Plug and Play support for Windows 95/98/Me/NT/2000 operating systems and is compatible with the vast majority of notebook PCs.

### **DEPENDABLE**

Developed with reliable 802.11b standards-based technology and comes with a 3-year limited warranty.
